ABOUT ME

I am a passionate and detail-oriented Software Testing professional with a strong foundation in Manual Testing and QA processes. I recently completed a Computer Software Testing course, where I gained hands-on experience in writing test cases, identifying bugs, and ensuring software quality throughout the SDLC. With a keen eye for detail, a love for problem-solving, and a strong desire to learn, I am eager to start my career as a QA Tester where I can contribute to delivering reliable and high-quality software products.

SKILLS FOR SOFTWARE TESTING

- **Software Testing**
- **Manual Testing**
- **Test Case Design & Execution**
- **Test Plan Preparation**
- **Defect Tracking & Reporting**
